

CoolGlide Laser Hair Removal

The Cutera CoolGlide is the best laser hair removal system on the market for all skin types and tones, from light to dark, including tanned patients. Its unique design, longer wavelength, and innovative cooling design allows for extremely effective, safe, and permanent results. The CoolGlide can treat the fine hair on a woman's upper lip just as easily and effectively as the coarse hair on a man's back. The cooled handpiece increases patients' comfort and minimizes the adverse skin reaction commonly seen with other lasers.

The CoolGlide can remove hair from all parts of the body including the face, legs, arms, underarms, and back. It can also treat sensitive areas like the chest and bikini line.
