

Limelight Facial

The Limelight Facial is a new, non-invasive approach to skin rejuvenation using Cutera's Limelight. The procedure offers the advantage of improving skin tone and surface imperfections associated with aging and photodamage.

The Limelight Facial is ideal for any part of your face, neck, and décolleté with skin redness, telangiectasia (tiny veins) or brown spots. Light (low contrast) brown spots, which were previously difficult to resolve, respond very well to treatment.
